# Solvision Room Scheduler
Model: SV-RBD-10

User Manual

Step 1: Configure Network

Room Scheduler device supports multiple network connection modes. Choose one of the following based on your infrastructure Network Setup:

Option A: Power over Ethernet (PoE)

- **Requirements:** PoE-enabled Ethernet port or switch

- **Steps:**

  1. Connect a PoE CAT cable to the device.

  2. The device will power ON and connect automatically.

✅ **Network Setup Complete - Continue with Step 2**

Option B: Ethernet (Non-PoE)

- **Requirements:** Standard Ethernet connection + Power Adapter (Included in box)

- **Steps:**

  1. Plug in a standard Ethernet cable to the device.

  2. Connect the provided power adapter to the device.

  3. The device will power on and connect automatically.

✅ **Network Setup Complete - Continue with Step 2**

Option C: Wi-Fi

- **Requirements:** Wi-Fi-enabled network and Power Adapter (Included in box)
  (*Required: Ethernet network access for initial configuration*)

- **Steps:**

  1. If an Ethernet connection via a router or network switch is available, connect it along with the power adapter.

     --OR--

     If Ethernet connection via router or network switch is unavailable, follow the **Computer Connection Network Setup** mentioned below. Once complete, continue with the remaining steps.

   **Computer Connection Network Setup**

     - Connect one end of the Ethernet cable to your PC/Laptop and the other end to the ethernet port of SV-RBD 10.
- Connect your PC/Laptop to a working Wi-Fi network or mobile hotspot with internet access.
- In the Windows search bar, *type* **"View Network Connections"** and open it.
- Right-click on the Wi-Fi adapter, click on Properties.
- Go to the Sharing tab, check **"Allow other network users to connect through this computer's Internet connection."** Then click OK.

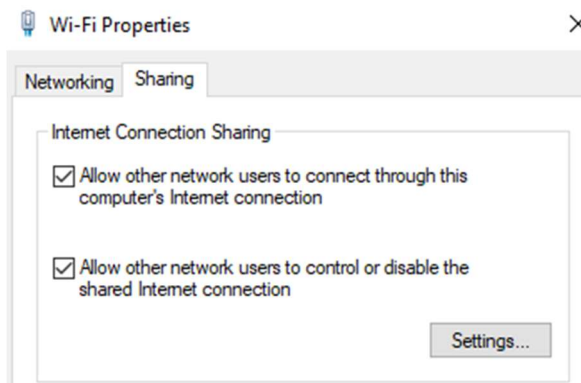

- Done — SV-RBD 10 will now receive internet via the Ethernet connection from your PC/Laptop.

2. Power ON the device and wait for the device to boot up, click the **Settings icon** (⚙️) in the top-right corner of the Solvision Room Scheduler app.
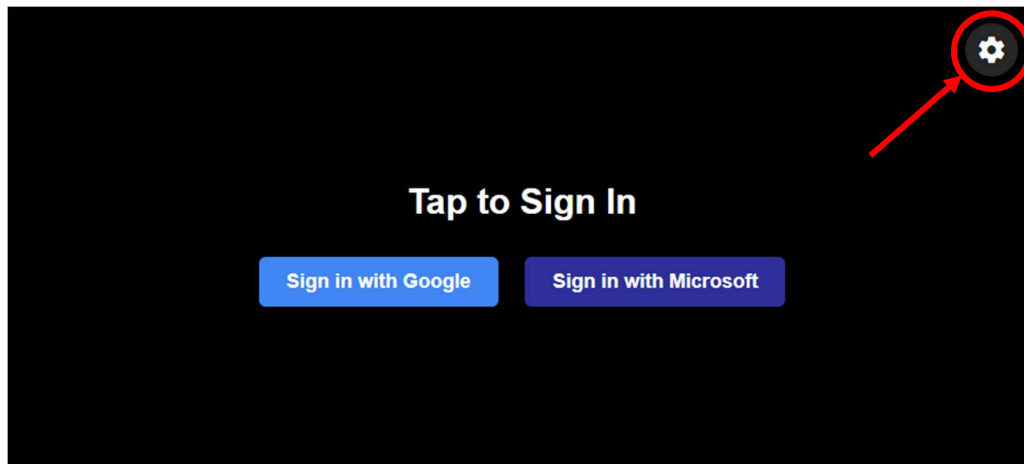

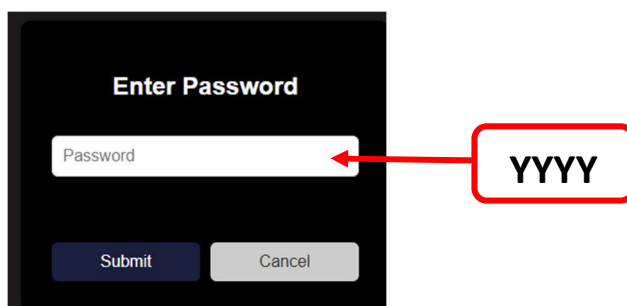

3. Enter password: **XXXX** to access the configuration menu. (Refer Password Card for *XXXX)*

4. Click the **'Configure Network'** button (bottom-left).

5. Enter password: **YYYY** to temporarily exit Fullscreen mode and access the Android interface. (Refer Password Card for *YYYY*)

6. Remove the Ethernet cable

7. Open the **Android Settings** app, navigate to **Wi-Fi**, and connect to your desired Wi-Fi network and wait for the connection to show as **'Connected'**.

8. Relaunch the Solvision Room Scheduler app from the home screen.

✅ **Network Setup Complete - Continue with Step 2**

Step 2: Login

⚠️ **Note:** Ensure the device is connected to the internet before proceeding.
If not done already, follow **Step 1: Configure Network** to set up your internet connection.

---

1. Once connected, you will see the login screen as shown below:
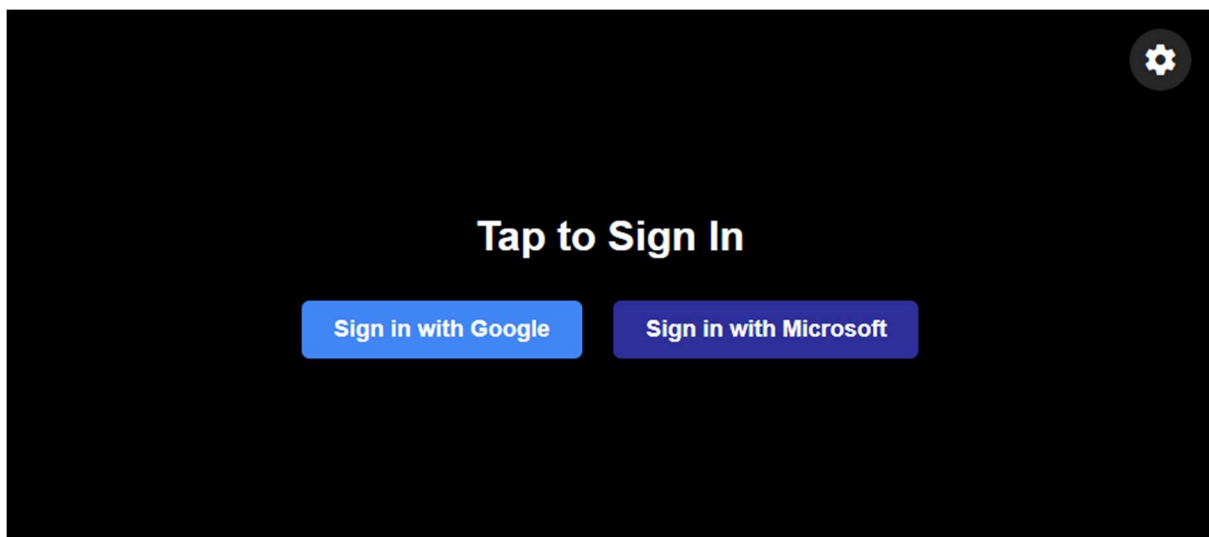

Login Options:

2. Please select one of the following sign-in methods based on your organization's configuration:

- **Sign in with Google**
- **Sign in with Microsoft**

3. Follow the on-screen instructions and log in using the assigned **email ID and password**.

💡 **Tip:** If you're unsure about the email credentials or login method, please refer to the **Email Configuration User Manual** provided for your administrator or IT team.
(Please contact **salesindia@solvisionav.in** for Email Configuration User Manual if required)

✅ **Login Successful**

Step 3: Configure Room Details

1. After logging in, you will be prompted to enter room-specific information. You should see a screen similar to the one below:

Required Fields:

- **Room Name** (e.g., *Conference Hall*)
- **Company Name** (e.g., *Solvision*)
- **Room Email ID** *(as provided by your IT team)*

💡 **Tip:** If you're unsure about the email credentials or login method, please refer to the **Email Configuration User Manual** provided for your administrator or IT team.
(Please contact **salesindia@solvisionav.in** for Email Configuration User Manual if required)

2. Once you've filled out all the details, click **Submit**.

✅ **All Set!** The device is now fully configured and ready to use.

⚠️ **Error Notice:**

If you encounter an error like the one shown below:

It means that the **Room E-mail ID you entered does not have a valid license**.

📤 **Action Required:**

Please contact **salesindia@solvisionav.in** to purchase or verify the license for the room email ID.
